Professional Goal/Mission:

To collaboratively help small to medium-sized businesses create and maintain their websites. Building and optimizing websites that delights clients & users alike. With high attention to detail that meets industry standards for the web.

Program Languages/Technologies:

HTML5 ~ CSS3 ~ Bootstrap ~ Javascript/jQuery ~ PHP ~ MJML ~
WordPress/Divi

Professional History:

[The Stellar Story](#) ~ Freelance Web Developer, Feb 2020 - May 2020

An ecommerce site for bespoke custom gifting service.
Custom-styled Divi theme and WooCommerce to achieve the look and functionality the client needed.

[Amber Dental](#) ~ Freelance Web Developer, Dec 2019 - April 2020

Website for a local dentist who provides a wide range of services for the entire family. Built with WordPress and Divi.

[Dawe's Laboratories](#) ~ Freelance Web Developer, Dec 2019 - Feb 2020

Website for a manufacturer of feed fortifiers for poultry, livestock, fish and pets. Built with WordPress and Divi, launched in time for their industry convention in Atlanta.

[MyStrongCircle](#) ~ Freelance Web Developer, Oct 2019 - Feb 2020

Website to promote the company's upcoming platform that allows people to bundle their fitness studio memberships. Built with WordPress and Divi after realizing that SquareSpace platform would not allow for the customizations required.

[Ms.P'sGlutenFree](#) ~ Freelance Web Developer, April 2019 - Aug 2019

An eCommerce store that specializes in gluten free products. This is a WordPress site with a theme called Cream.

[OBL Financial](#) ~ HTML Email Developer, March-April 2019

Custom built HTML email project, built with MJML. Emails were then integrated into the client's VBA program.

Education:

College of DuPage, Certificate for Front-End Development
Western Illinois University, BA
